PROCEEDINGS INDEX 1983

The abbreviations used in this index are as follows: (Art.) Article; (BkRev) Book Review; (C&D) Comment and Discussion; (LF) Leadership Forum; (NAMB) Nobody Asked Me But . . . ; (OCG) Old Coast Guard; (ON) Old Navy; (PN) Professional Note; (SN) Secretary's Notes; (Sp.) Special.

The Proceedings *index is divided into two sections: subject and author-title. After each entry in the subject section, letter-number codes appear which refer to entries in the author-title section. For example, if one wanted to see which* Proceedings *items during the year contained material on World War II Vice Admiral Willis A. Lee, he would find the entry in the subject section and the codes F-10 and M-41. F-10 would guide the reader to a special which began on page 122 of the July 1983* Proceedings. *M-41 refers to a followup comment on the original piece, also mentioning Admiral Lee; that one was published in the November issue, beginning on page 98. A blank space in the author-title section, as in item A-03, indicates it was written by the same author as the preceding one.*
